SUPPLEMENTAL

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 22, 2004 has been entered.

Reasons for Allowance

Claims 1-6 and 8-10 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites an image reading apparatus comprising:

a flat cable electrically connecting the image reading unit to a main body of the image reading apparatus to transmit the image information read by the image reading unit to the main body of the image reading apparatus,

wherein a width direction of the flat cable is perpendicular to an original resting surface so that the flat cable is flexible in a direction parallel to the original resting surface..

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
